PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1994) 50, 367–372
© Longman Group Ltd 1994

Subject Index to Volume 50

A

Abortion
  comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs and effects of sulprostone, 245
  pre-operative cervical preparation before first trimester missed abortion: a randomized controlled comparison between single or double intracervical administration of prostaglandins E_2 gel, 267
Adenylate cyclase, interrelationship of ascorbate arachidonic acid and prostaglandin E_2 in B16 melanoma cells and, 123
Adrenic acid Δ4 desaturation and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43
Airway: lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271
Aluminium: pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
5-Aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
Amnion
  actions of interleukin-4 on prostaglandins biosynthesis by human amnion cells, 133
  influence of culture media on prostaglandin output by dispersed amnion cells, 93
  regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and interleukin-1β, 137
  topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
Anaesthesia: epidural blood flow during prostaglandin E_1 or trimethaphan induced hypotension, 199
Anti-progestins: comparison of pregnancy-terminating potencies of three compounds and effects of sulprostone, 245
Arachidonic acid (AA)
  alterations in plasma and tumour levels of fatty acids with weight loss in an experimental cachexia model, 229
  essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
  essential fatty acid metabolism in South Indians, 253
  in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and AA uptake by human endometrium, 321
  interrelationship of ascorbate AA and prostaglandin E_2 in B16 melanoma cells, 123
  pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and AA in MC3T3-E1 osteoblasts, 177
  prostaglandin E_2 production and AA levels in submandibular salivary glands of rats in essential fatty acid deficiency, 141
Ascites, production of inflammatory mediators by human macrophages from, 183
Ascorbate, interrelationship in B16 melanoma cells of arachidonic acid prostaglandin E_2 and, 123
Atherosclerosis
  antiatherosclerotic potency of high density lipoprotein is affected by its composition, 115
  platelet-activating factor: implications for coronary heart and vascular diseases, 1
ATP levels histamine release and calcium concentrations in rat mast cells, effects of prostaglandin D_2, on, 357

B

Bacterial infection
  effects of lipopolysaccharide on human placental prostaglandin $F_{2\alpha}$ production in vitro, 311
  eicosanoids and septicaemia, 287
Bleeding disorders: von Willebrand's disease and haemophilia are associated with diminished thromboxane A_2 formation in clotting whole blood, 49
Blood pressure
  epidural blood flow during prostaglandin E_1 and trimethaphan induced hypotension, 199
  essential fatty acid metabolism in South Indians, 253
  marine oils and cardiovascular reactivity, 211
Bone
  eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
  pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
  role of endogenous prostaglandin E_2 in osteoblastic functions of clonal osteoblast-like cell MC3T3-E1, 169
Book reviews, 365
Brain: differential tissue expression of immunoreactive dehydropeptidase-I, 85

C

Cachexia, cancer: alterations in plasma and tumour levels of fatty acids with weight loss in an experimental model, 229
Calcium
  eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
  histamine release and calcium concentrations in rat mast cells are dependent on intracellular ATP: effects of prostaglandin D_2, 357
  intestinal calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
  role of endogenous prostaglandin E_2 in osteoblastic functions of clonal osteoblast-like cell MC3T3-E1, 169

Cancer *see* Cachexia
Catechin: and inhibition of thromboxane A_2 biosynthesis in vitro by main components of *Crataegus oxyacantha* flower heads, 173
Cervical preparation before first trimester missed abortion: a randomized controlled comparison between single or double intracervical administration of PGE_2 gel, 267
Cholesterol: antiatherosclerotic potency of high density lipoprotein is affected by its composition, 115
Clomiphene, prostaglandin inactivation is increased in endometrium following exposure to, 235
Coagulation disorders: von Willebrand's disease and haemophilia are associated with diminished thromboxane A_2 formation in clotting whole blood, 49
Colon
  5-aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
  role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Conference report: 'Antioxidants, Free Radicals and PUFAs in Biology and Medicine' (May 1993), 363
Corneal permeability to and ocular metabolism of phenyl-substituted prostaglandin esters in vitro, 161
Crataegus oxyacantha (hawthorn) flower heads, in vitro inhibition of thromboxane A_2 biosynthesis by main components of, 173
Culture media, influence on prostaglandin output by dispersed amnion cells of, 93
Cyclooxygenase gene expression in human endometrium and decidua, 239
Cyclosporine-induced nephrotoxicity in Wistar rats, effect of gamma linolenic acid and eicosapentaenoic acid on, 29
Cytokines
  actions of interleukin-4 on prostaglandin biosynthesis by human amnion cells, 133
  effect of prostaglandins and their precursors on the proliferation of human lymphocytes and their secretion of tumour necrosis factor and various interleukins, 331
  regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and interleukin-1β, 137

D

Decidua, human, cyclooxygenase gene expression in, 239
Deep frozen human tissue specimens: eicosanoid production in vitro is markedly changed, 303
Dehydropeptidase-I, differential tissue expression in rat of, 85
Delta-4 desaturation of adrenic acid and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43
Diabetes mellitus
  adrenic acid Δ4 desaturation and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43
  essential fatty acid metabolism in South Indians, 253
  platelet phosphoinositide turnover in streptozotocin-induced diabetes, 339
Diet (dietary)
  alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and eicosapentaenoic acid in Wistar rats, 29
  antiatherosclerotic potency of high density lipoprotein is affected by its composition, 115
  calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
  eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
  essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
  in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
  marine oils and cardiovascular reactivity, 211
  n-3 fatty acids reduce in vitro thromboxane production while having little effect on in vitro prostacyclin production in the rat, 223
  prostaglandin E_2 production in submandibular salivary glands of rats in essential fatty acid deficiency, 141
Diglycerides: pertussis toxin-sensitive and insensitive G proteins mediate AlF_4^- stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
Docosahexaenoic acid (DHA)
  essential fatty acid metabolism in South Indians, 253
  lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271
Docosatetraenoic acid (adrenic acid) Δ4 desaturation and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43

E

Eicosapentaenoic acid (EPA)
  alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and EPA in Wistar rats, 29
  essential fatty acid metabolism in South Indians, 253
  in vivo and in vitro effects of gamma-linolenic acid and EPA on prostaglandin production and arachidonic acid uptake by human endometrium, 321
  inhibition of bone loss due to ovariectomy in rats by, 81
Endometrium
  cyclooxygenase gene expression in human endometrium and decidua, 239
  in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
  prostaglandin inactivation is increased in endometrium after exposure to clomiphene, 235
Endothelin
  effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
  prostaglandin E_2 as a mediator for endothelin release, 37
Endotoxin
  effects of lipopolysaccharide on human placental prostaglandin $F_{2\alpha}$ production in vitro, 311
  eicosanoids and septicaemia, 287
Epicatechin: and inhibition of thromboxane A_2 biosynthesis in vitro by main components of *Crataegus oxyacantha* flower heads, 173
Epidural blood flow during prostaglandin E_1 or trimethaphan induced hypotension, 199
Evening primrose oil
  alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and eicosapentaenoic acid in Wistar rats, 29
  calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
Eye: corneal permeability to and ocular metabolism of phenyl-substituted prostaglandin esters in vitro, 161

F

Fatty acids (FAs)
  adrenic acid Δ4 desaturation and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43
  alterations in plasma and tumour levels of FAs with weight loss in an experimental cachexia model, 229
  calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
  essential fatty acid metabolism in South Indians, 253
  n-3 FAs reduce in vitro thromboxane production while having little effect on in vitro prostacyclin production in the rat, 223
  prostaglandin E_2 production and fatty acid composition in submandibular salivary glands of rats in essential FA deficiency, 141
Fetus: eicosanoid production by frozen tissue is markedly changed, 303
Fish oil
  alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and eicosapentaenoic acid in Wistar rats, 29
  antiatherosclerotic potency of high density lipoprotein is affected by its composition, 115
  calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
  marine oils and cardiovascular reactivity, 211
Frozen human tissue specimens: eicosanoid production in vitro is markedly changed, 303

G

G proteins
intracellular translocation of rap 1-B induced by prostaglandin E_1 is blocked by phorbol ester in human platelets, 299
pertussis toxin-sensitive and insensitive G proteins mediate AlF_4^- stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
γ-glutamyl transpeptidase: differential tissue expression of immunoreactive dehydropeptidase-I, 85
Gamma linolenic acid (GLA)
alteration of cyclosporine-induced nephrotoxicity by GLA and eicosapentaenoic acid in Wistar rats, 29
in vivo and in vitro effects of GLA and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
Gastrointestinal tract
5-aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs: modifications induced by pretreatment with zinc acexamate, 305
prostaglandin E_2 as a mediator for endothelin release, 37
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Gene expression of cyclooxygenase and lipoxygenase in human endometrium and decidua, 239

H

Haemophilia is associated with diminished thromboxane A_2 formation in clotting whole blood, 49
Hawthorn (*Crataegus oxyacantha*) flower heads, in vitro inhibition of thromboxane A_2 biosynthesis by main components of, 173
Heart
marine oils and cardiovascular reactivity, 211
platelet-activating factor: implications for coronary heart and vascular diseases, 1
Henoch-Schönlein purpura, role of plasma arachidonic acid metabolites in pathogenesis and prognosis of, 353
High density lipoprotein antiatherosclerotic potency is affected by its composition, 115
High-performance liquid chromatography of eicosanoids, tritium isotope effect in, 335
Histamine release and calcium concentrations in rat mast cells are dependent on intracellular ATP: effects of prostaglandin D_2, 357
Hormones *see* Insulin; Steroid hormones
HRP 2000: comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs, 245
Hypertension: and essential fatty acid metabolism in South Indians, 253
Hypokalaemia: interactions between the renin-angiotensin system and prostanoids in modulating renal function in potassium-depleted healthy women, 347

I

Iloprost
effect on endothelin release of, 37
effect on trauma-related pulmonary sequestration of leucocytes and platelets of, 203
Indians, essential fatty acid metabolism in, 253
Inflammation
effect of prostaglandins and their precursors on the proliferation of human lymphocytes and their secretion of tumour necrosis factor and various interleukins, 331
gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs: modifications induced by pretreatment with zinc acexamate, 305
plasma arachidonic acid metabolites in the pathogenesis and prognosis of Henoch-Schönlein purpura, 353
platelet-activating factor: implications for coronary heart and vascular diseases, 1
production of inflammatory mediators by human macrophages obtained from ascites, 183
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Inflammatory bowel disease
5-aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Inositol phosphates
pertussis toxin-sensitive and insensitive G proteins mediate AlF_4^- stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
platelet phosphoinositide turnover in streptozotocin-induced diabetes, 339
Insulin, essential fatty acid metabolism in South Indians and, 253
Interleukins (ILs)
actions of IL-4 on prostaglandin biosynthesis by human amnion cells, 133
effect of prostaglandins and their precursors on the proliferation of human lymphocytes and their secretion of tumour necrosis factor and various ILs, 331
regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and IL-1β, 137
Intestine(s) *see* Gastrointestinal tract
Ischaemia
platelet-activating factor: implications for coronary heart and vascular diseases, 1
prostaglandin E_2 as a mediator for endothelin release, 37
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105

K

Kidney
alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and eicosapentaenoic acid in Wistar rats, 29
interactions between the renin-angiotensin system and prostanoids in modulating renal function in potassium-depleted healthy women, 347

L

Leukotrienes (LTs)
5-aminosalicylic acid inhibits LTB_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
differential tissue expression of immunoreactive dehydropeptidase-I, 85
eicosanoid production by frozen tissue is markedly changed, 303
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
fern *Polypodium decumanum* and its fatty acid constituents as inhibitors of LTB_4 formation, 279
lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271
plasma LTC_4 levels in patients with Henoch-Scönlein purpura, 353
Lilopristone: comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs, 245
Lipid peroxidation, endothelin release following mesenteric ischaemia/reperfusion injury and, 37
Lipopolysaccharide *see* Endotoxin
Lipoprotein: antiatherosclerotic potency of high density lipoprotein is affected by its composition , 115
Lipoxygenase
5-lipoxygenase gene expression in human endometrium and decidua, 239
lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271
non-specific oxidative pathway for xenobiotic metabolism, 155
Liver
adrenic acid Δ4 desaturation and fatty acid composition in liver microsomes of spontaneously diabetic Wistar BB rats, 43

alterations in plasma and tumour levels of fatty acids with weight loss in an experimental cachexia model, 229
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
role of prostaglandins in hepatic resection, 65
Lung(s)
effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
iloprost attenuates trauma-related pulmonary sequestration of leucocytes and platelets, 203
lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271
Lymphocytes, effect of prostaglandins and their precursors on proliferation of and secretion of tumour necrosis factor and interleukins by, 331

M

Macrophages: production of inflammatory mediators by cells obtained from ascites, 183
Mast cell histamine release and calcium concentrations are dependent on intracellular ATP: effects of prostaglandin D_2, 357
Membranes: effect of essential fatty acid supplementation on calcium transport by isolated brush border and basolateral membrane vesicles, 257
Mifepristone: comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs, 245
Muscle: lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by human platelets, 271

N

Neutrophils
5-aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
eicosanoids and septicaemia, 287
iloprost attenuates trauma-related pulmonary sequestration of leucocytes and platelets, 203
Nicotine, effects on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells of, 193
Non-steroidal anti-inflammatory drugs (NSAIDs): gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs and modifications induced by pretreatment with zinc acexamate, 305

O

Oestrogen
eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
prostaglandin inactivation is increased in endometrium after exposure to clomiphene, 235
Osteoblasts
pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
role of endogenous prostaglandin E_2 in osteoblastic functions of clonal osteoblast-like cell MC3T3-E1, 169
Osteoporosis: eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
Ovariectomy, eicosapentaenoic acid inhibits bone loss in rats due to, 81

P

Pancreas
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
Phenyl-substituted prostaglandin esters, corneal permeability to and ocular metabolism in vitro of, 161
Phorbol ester blocks intracellular translocation of rap 1-B G protein induced by prostaglandin E_1 in human platelets, 299
Phosphoinositide(s)
pertussis toxin-sensitive and insensitive G proteins mediate $AlFl_4^-$ stimulated release of inositol phosphates diglycerides and arachidonic acid in MC3T3-E1 osteoblasts, 177
platelet phosphoinositide turnover in streptozotocin-induced diabetes, 339
Phospholipase(s)
human placental proteins and, 53
influence of culture media on prostaglandin output by dispersed amnion cells and, 93
Placenta
eicosanoid production by frozen tissue in vitro is markedly changed, 303
human placental proteins, 53
prostaglandin $F_{2\alpha}$ production in vitro, effects of lipopolysaccharide on, 311
see also Amnion
Plants
fern *Polypodium decumanum* and its fatty acid constituents as inhibitors of leukotriene B_4 formation, 279
inhibition of thromboxane A_2 biosynthesis in vitro by the main components of *Crataegus oxyacantha* (hawthorn) flower heads, 173
Platelet(s)
eicosanoids and septicaemia, 287
iloprost attenuates trauma-related pulmonary sequestration of leucocytes and platelets, 203
intracellular translocation of rap 1-B G-protein induced by prostaglandin E_1 is blocked by phorbol ester in, 299
lipoxygenase stimulating effects of hydroxylated docosahexaenoates produced by, 271
phosphoinositide turnover in streptozotocin-induced diabetes, 339
von Willebrand's disease and haemophilia are associated with diminished thromboxane A_2 formation in clotting whole blood, 49
Platelet-activating factor (PAF)
eicosanoids and septicaemia, 287
implications for coronary heart and vascular disease of, 1
role in pathogenesis of gastrointestinal disease of, 105
Policosanol, effect on experimental thrombosis models of, 249
Polymorphonuclear leucocytes *see* Neutrophils
Polypodium decumanum and its fatty acid constituents as inhibitors of leukotriene B_2 formation, 279
Potassium-depleted healthy women: interactions between the renin-angiotensin system and prostanoids in modulating renal function, 347
Pre-eclampsia, cyclooxygenase gene expression in human endometrium and decidua and, 239
Pregnancy
actions of interleukin-4 on prostaglandin biosynthesis by human amnion cells, 133
comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs and effects of sulprostone, 245
cyclooxygenase gene expression in human endometrium and decidua and, 239
influence of culture media on prostaglandin output by dispersed amnion cells, 93
placental proteins, human, 53
pre-operative cervical preparation before first trimester missed abortion: a randomized controlled comparison between single or double intracervical administration of prostaglandin E_2 gel, 267
regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and interleukin-1β, 137
topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
Prostacyclin (prostaglandin I_2)
analogue *see* Iloprost
application of an α-sidechain length-specific monoclonal antibody to immunoaffinity purification and enzyme immunoassay of 2,3-dinor-6-keto-prostaglandin $F_{1\alpha}$ from human urine, 69
effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
effects of policosanol on experimental thrombosis models, 249
eicosanoid production by frozen tissue in vitro is markedly changed, 303
n-3 fatty acids reduce in vitro thromboxane production while having little effect on in vitro prostacyclin production in the rat, 223

Prostaglandin D_2 (PGD_2)
effects on histamine release ATP levels and calcium concentrations in rat mast cells of, 357
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
Prostaglandin dehydrogenase
corneal permeability to and ocular metabolism of phenyl-substituted prostaglandin esters in vitro, 161
prostaglandin inactivation is increased in endometrium after exposure to clomiphene, 235
Prostaglandin E_1 (PGE_1)
epidural blood flow during PGE_1-induced hypotension, 199
intracellular translocation of rap 1-B G-protein induced by PGE_1 is blocked by phorbol ester in human platelets, 299
role of prostaglandins in hepatic resection, 65
Prostaglandin E_2 (PGE_2)
actions of interleukin-4 on PGE_2 biosynthesis by human amnion cells, 133
eicosanoid production by frozen tissue in vitro is markedly changed, 303
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
gastrotoxic activity and inhibitory effects on gastric mucosal PGE_2 production of different NSAIDs: modifications induced by pretreatment with zinc acexamate, 305
in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
influence of culture media on amnion cell production of, 93
interrelationship of ascorbate arachidonic acid and PGE_2 in B16 melanoma cells, 123
as mediator in endothelin release, 37
plasma PGE_2 levels in patients with Henoch-Schönlein purpura, 353
pre-operative cervical preparation before first trimester missed abortion: a randomized controlled comparison between single or double intracervical administration of PGE_2 gel, 267
regulation of intrauterine PGE_2 biosynthesis: interactions between protein kinase C and interleukin-1β, 137
role of endogenous PGE_2 in osteoblastic functions of clonal osteoblast-like cell MC3T3-E1, 169
in submandibular salivary glands of rats in essential fatty acid deficiency, 141
topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
6-keto-Prostaglandin $F_{1\alpha}$
application of an α-sidechain length-specific monoclonal antibody to immunoaffinity purification and enzyme immunoassay of 2,3-dinor-6-keto-prostaglandin $F_{1\alpha}$ from human urine, 69
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
Prostaglandin $F_{2\alpha}$ ($PGF_{2\alpha}$)
corneal permeability to and ocular metabolism of phenyl-substituted prostaglandin esters in vitro, 161
effects of lipopolysaccharide on human placental $PGF_{2\alpha}$ production in vitro, 311
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
Prostaglandin I_2 *see* Prostacyclin
Protein kinase(s)
human placental proteins and, 53
regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and interleukin-1β, 137
Psoriasis: fern *Polypodium decumanum* and its fatty acid constituents as inhibitors of leukotriene B_4 formation, 279
Pulmonary artery
effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
iloprost attenuates trauma-related pulmonary sequestration of leucocytes and platelets, 203
Purpura, Henoch-Schönlein, role of plasma arachidonic acid metabolites in the pathogenesis and prognosis of, 353

R

Rap 1-B G-protein: prostaglandin E_1-induced intracellular translocation is blocked by phorbol ester in human platelets, 299
Renal dipeptidase (dehydropeptidase-I), differential tissue expression in rat of, 85
Renin-angiotensin system and prostanoids in modulation of renal function in potassium-depleted healthy women, 347

S

Salivary glands: prostaglandin E_2 production in submandibular glands of rats in essential fatty acid deficiency, 141
Septicaemia, eicosanoids and, 287
Skin: fern *Polypodium decumanum* and its fatty acid constituents as inhibitors of leukotriene B_4 formation, 279
Smoking: effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
Spine: epidural blood flow during prostaglandin E_1 or trimethaphan induced hypotension, 199
Steroid hormones
comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs and effects of sulprostone, 245
eicosapentaenoic acid inhibits bone loss due to ovariectomy in rats, 81
prostaglandin inactivation is increased in endometrium after exposure to clomiphene, 235
Stomach
gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs: modifications induced by pretreatment with zinc acexamate, 305
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
see also Gastrointestinal tract
Sulprostone: and comparison of the pregnancy-terminating potencies of three anti-progestins in guinea-pigs, 245

T

Thrombosis
effects of policosanol on experimental models of, 249
implications for coronary heart and vascular diseases of platelet-activating factor, 1
Thromboxane A_2 (TXA_2)
effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
eicosanoid production by frozen tissue in vitro is markedly changed, 303
inhibition of TXA_2 biosynthesis in vitro by main components of *Crataegus oxyacantha* (hawthorn) flower heads, 173
n-3 fatty acids reduce in vitro thromboxane production while having little effect on in vitro prostacyclin production in the rat, 223
role of prostaglandins in hepatic resection, 65
von Willebrand's disease and haemophilia are associated with diminished TXA_2 formation in clotting whole blood, 49
Thromboxane B_2 (TXB_2)
essential fatty acid deficiency in the pig: effects on eicosanoid basal levels and in vitro synthesis by the small intestine, 147
topographic differences in amniotic fluid concentrations of prostanoids in women in spontaneous labour at term, 97
Thromboxane synthetase inhibitor UK 38485, effect on endothelin release of, 37
T-lymphocytes, effect of prostaglandins and their precursors on proliferation of and secretion of tumour necrosis factor and interleukins by, 331
Trauma-related pulmonary sequestration of leucocytes and platelets, effects of iloprost on, 203
Trimethaphan-induced hypotension, epidural blood flow during, 199
Tritium isotope effect in high-performance liquid chromatography of eicosanoids, 335
Tumour(s)/cancer: alterations in plasma and tumour levels of fatty acids with weight loss in an experimental cachexia model, 229
Tumour necrosis factor secretion by human lymphocytes, effect of prostaglandins and their precursors on, 331

U

Ulcers
5-aminosalicylic acid inhibits leukotriene B_4 ω-hydrolase activity in human polymorphonuclear leukocytes, 317
gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs: modifications induced by pretreatment with zinc acexamate, 305
role of platelet-activating factor in the pathogenesis of gastrointestinal disease, 105
Urine (urinary prostaglandins)
alteration of cyclosporine-induced nephrotoxicity by gamma linolenic acid and eicosapentaenoic acid in Wistar rats, 29
application of an α-sidechain length-specific monoclonal antibody to immunoaffinity purification and enzyme immunoassay of 2,3-dinor-6-keto-prostaglandin $F_{1\alpha}$ from human urine, 69
interactions between the renin-angiotensin system and prostanoids in modulating renal function in potassium-depleted healthy women, 347
Uterus
cyclooxygenase gene expression in human endometrium and decidua, 239
in vivo and in vitro effects of gamma-linolenic acid and eicosapentaenoic acid on prostaglandin production and arachidonic acid uptake by human endometrium, 321
prostaglandin inactivation is increased in endometrium after exposure to clomiphene, 235
regulation of intrauterine prostaglandin biosynthesis: interactions between protein kinase C and interleukin-1β, 137
see also Amnion

V

Vascular system
antiatherosclerotic potency of high density lipoprotein is affected by its composition, 115
effects of nicotine on production of endothelin and eicosanoid by bovine pulmonary artery endothelial cells, 193
eicosanoids and septicaemia, 287
epidural blood flow during prostaglandin E_1 or trimethaphan induced hypotension, 199
essential fatty acid metabolism in South Indians, 253
iloprost attenuates trauma-related pulmonary sequestration of leucocytes and platelets, 203
marine oils and cardiovascular reactivity, 211
plasma arachidonic acid metabolites in the pathogenesis and prognosis of Henoch-Schönlein purpura, 353
platelet-activating factor: implications for coronary heart and vascular diseases, 1
policosanol effects on experimental thrombosis models, 249
prostaglandin E_2 as a mediator for endothelin release, 37
see also Bleeding disorders
Vitamin(s)
calcium transport by isolated brush border and basolateral membrane vesicles: role of essential fatty acid supplementation, 257
interrelationship of ascorbate arachidonic acid and prostaglandin E_2 in B16 melanoma cells, 123
Von Willebrand's disease is associated with diminished thromboxane A_2 formation in clotting whole blood, 49

X

Xenobiotic metabolism, involvement of lipoxygenase in, 155

Z

Zinc acexamate pretreatment: and gastrotoxic activity and inhibitory effects on gastric mucosal prostaglandin E_2 production of different NSAIDs, 305

PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1994) 50, 373–375
